

Investing in your water future

We are currently finalising major works at our Elanora Wastewater Treatment Plant.

The \$14 million project will improve the performance of the plant.

The works include the installation of new wastewater screening and processing equipment. The improvements will also provide:

- greater utilisation of recycled water for the plant's existing and future facilities
- greater reliability of the plant's power supply at reduced power costs
- improved odour treatment and reduction

Work on the project started in April 2010 and will be completed in coming months.

The inlet works project is part of an ongoing works program by Allconnex Water to provide safe, reliable and high-quality water and wastewater services to our customers.

We are reading your water meters

Allconnex Water will read meters in the following areas this week:

Broadbeach	Burleigh Heads
Currumbin Valley	Currumbin Waters
Elanora	Mermaid Beach
Mermaid Waters	Miami
Surfers Paradise	Tallebudgera Valley
Tallebudgera	Tugun
Varsity Lakes	

You can help us to read your meter by making sure it is accessible and visible.

Water consumption charges from this reading will appear on your next Allconnex Water Account.

If you would like to track your water use, check out our website for details on how to read your meter, or call us for a fact sheet.
