

## Investing in your water future

We're replacing water mains in Loganlea - along the entire length of Errol Street and continuing down Rellam Road - until the end of this month.

This vital project allows Allconnex Water to maintain a secure water supply in the Logan area.

We will soon commence other water main replacements at:

- Dart Avenue and Juers Street, Kingston
- Narcamus Street, Shailer Park
- Wirra Street, Shailer Park

These Allconnex Water projects are part of an ongoing maintenance program to provide safe, reliable and high-quality water and wastewater services to our customers.

Thank you for your patience while these works are undertaken.

### What to expect

#### Water supply disruption

As we replace the water main along Errol Street it will be necessary to isolate the water supply to properties in the immediate vicinity, usually between 8am and 4pm each week day. A separate notification will be issued to affected customers a minimum of 48 hours before any water supply disruption.

#### Safety

Traffic control will be in place along Errol Street throughout the construction phase.

#### Works

Trenchless techniques will be used to install new pipework under existing driveways wherever possible.

The remainder of the water main replacement will be by open-trench method. Upon completion, turf will be laid over the disturbed area.
