Metered standpipe approval application	Error! Bookmark not defined.

Commencement date of this approval is made on ____ / ____ / ____

Between Allconnex Water of 833 Southport-Nerang Road, NERANG (Service Provider)

and XXXXXXXXX, address, CAN (Customer)

It is agreed.

1 Background

- a) The Service Provider (Allconnex Water) owns and operates the potable water filling points and may grant approval to connect a metered standpipe to its infrastructure under the *Water Supply (Safety and Reliability) Act 2008, Division 5, Part 7, Section 191, Connecting to or Disconnecting from Service Provider's infrastructure without approval*. A person must not, without the written consent of a Service Provider, connect to, or disconnect from, the Service Provider's infrastructure. Maximum penalty – 1000 penalty points.
- b) The water treatment facility produces the potable water.
- c) The potable water is supplied through a metered standpipe for various business uses by customers.
- d) The Customer has offered to purchase from the Service Provider, potable water produced at the water treatment facility for supply to its customers for various business uses.
- e) The Service Provider has accepted the Customer's request, and will supply the Customer with potable water.
- f) The Service Provider has certain obligations with respect to public health and safety and compliance with water restrictions.

2 Supply of potable water

2.1 Delivery of potable water

The Service Provider shall transport potable water from the water treatment facility to the approved delivery points to enable the Company to extract the potable water through a metered standpipe

2.2 Access of Supply

- a) Subject to the terms of this approval, the Service Provider will use reasonable endeavours to ensure that potable water is available for collection at the delivery points during business hours.
- b) The Service Provider acknowledges that potable water available to the Customer at the delivery points may be influenced by, and may at times be interrupted by, variable factors including (but not limited to):
 - fluctuations in the number of customers drawing potable water from the respective potable water access points
 - changes in legislative provisions
 - the occurrence of any accident, strike, civil commotion, natural disaster or other such incident beyond the control of the Service Provider
 - the capacity of the respective potable water reticulation system

- the failure of any plant or equipment
- the locations or any interference with a property
- any concerns of workplace and safety hazards
- any inappropriate use of potable water, in terms of Service Provider water restrictions by any person
- maintenance or repairs to the potable water reticulation system

2.3 Quality of supply

- The Service Provider acknowledges that the potable water is suitable for:
 - General human or animal contact, including drinking, swimming and washing.
- The Service Provider acknowledges that the quality standards have been provided under Allconnex Water's Drinking Water Quality Management System.
- The Service Provider acknowledges that they are not liable for any change in the quality of the potable water if it fails to comply with the quality standards as a result of the transportation, storage, treatment or use of the potable water that may occur after it is collected by the Customer.

2.4 Compliance monitoring

- The Customer acknowledges that the Service Provider will undertake, or coordinate the undertaking of compliance monitoring.
- Compliance monitoring will assess the Customers compliance with the terms of this Approval, or with any relevant legislative provisions or guidelines as prepared by a competent authority.
- The Customer must provide information pertaining to this approval upon request.
- The taking away of water by a Customer in breach of a term of this approval or in contravention of a notice issued in relation to such breach or otherwise shall constitute an offence under the *Water Supply (Safety and Reliability) Act 2008*.

3 Responsibility for potable water

3.1 Responsibility

Regardless of whether the Customer has paid the potable water fee to the Service Provider, the Customer agrees that:

- Responsibility of the potable water will pass to the Customer at the deliverypoint.

4 Potable water customer responsibilities

4.1 Supply to customers

- The Customer acknowledges that they shall only supply potable water to their customers for the purpose under this agreement.
- The Customer acknowledges that they shall only supply potable water to their customers through the use of a Service Provider's owned and approved metered standpipe.
- The Customer shall only supply potable water that is to be used by their customers under the Water Supply Restrictions as permitted and under the *Land and Development Guidelines*.

- d) The Service Provider shall only supply potable water that is to be used for human consumption if they are an approved carrier under the *Food Act 2006*.
- e) It is the Customer's responsibility to ensure that any person who uses a customer's metered standpipe are aware of the conditions in this approval.

4.2 Customers vehicles

- a) The Customer shall install and carefully maintain signs on the roadside of the customer's vehicles used to carry potable water, authorising them as an approved customer.
- b) Domestic customers vehicles must hold a current food licence and display a permit sticker. The vessel must not be used to convey liquid other than potable water suitable for human consumption.
- c) Each potable water vessel must be fitted with backflow prevention that meets the requirements of *AS3500*. Copies of current backflow certification must be provided to Service Provider on request. If you require backflow certification please contact Gold Coast City Council, Plumbing and Drainage on 5582 2893 or visit www.goldcoast.qld.gov.au

4.3 Potable water access points

- a) **Domestic water carriers** referred to in Schedule 2, must only access water from Authorised Service Providers' Domestic Filling Station points. If you require a food licence please contact Gold Coast City Council, Licensing Approvals on (07)5581 6867 or visit www.lgtoolbox.qld.gov.au/gccc/FoodBusinessMobile/Pages/Overview.aspx
- b) **General water carriers** can access water from Authorised Service Provider's Domestic Filling Stations if hazardous chemicals are not transported in that customer's vehicle, otherwise roadside access points must be used that are not located within residential areas.
- c) **Non water carriers** that use water directly from the potable water access points must not interfere or impede with any residential property.

5 Meter standpipe responsibilities

5.1 Meter standpipe

- a) The metered standpipe shall be used to record all water that is accessed from the reticulation system via the standpipe.
- b) A log book will be kept and all water accessed through the standpipe from the potable water reticulation system shall be recorded in the log book.
- c) Metered standpipes shall be hired out to the Customer on a short term or long term basis depending on their requirements.
- d) Metered standpipe readings shall be forwarded or the standpipe presented for inspection within a time interval as determined by the Service Provider, based on the usage of water used by the Company.

5.2 Metered standpipes not returned

- a) If the Customer reports the long term standpipe - as referred to in 5.1(c) - as lost, stolen misplaced or not returned, the security bond -as referred to in 6.1(a) - shall be retained by the Service Provider.
- b) If a short term metered standpipe is reported, as lost, stolen or misplaced - as referred to in 5.1(c) - and not returned then the Customer shall be invoiced for the cost of a new metered standpipe.
- c) If the metered standpipe is lost, stolen or misplaced the Customer must report the loss with the serial number of the standpipe to their local police station. A crime report number must be obtain and forwarded to the Service Provider before the daily hire rate can be ceased.

5.3 Metered standpipe damage

- b) Any repairs for damages occurring to the Service Provider's assets, including infrastructure, shall be invoiced to the Customer.

6 Financial arrangements

6.1 Security bond and fees

- a) The Customer shall pay to the Service Provider a security bond for the hire of each long term metered standpipe, to be held in a trust fund account.
- b) The long term metered standpipe - as referred to in 5.1(c) - Security Bond shall be refunded by the Service Provider on return of the metered standpipe, less any debts that are outstanding on that Customer's account.
- c) A fee per kilolitre used will apply for the water, and a charge rate per daily hire. The fees and charges are available on the Service Provider's website www.allconnex.com.au

The fees and charges may be reviewed at anytime.

7 Expiry of agreement

7.1 Expiry

This approval will expire on _____, unless otherwise terminated earlier under this Approval.

8 Default

8.1 Events of default

Customer will be in default under this approval if it:

- a) fails or refuses to comply with any condition or requirement or request imposed on the Customer by the *Water Supply (Safety and Reliability) Act 2008*
- b) fails to comply with any laws, directions or authorities of any competent authority related to the transport, supply and usage of Potable Water including a direction from the Service Provider to the Customer in part 5
- c) fails or refuses to pay any potable water fees or charges owing to the Service Provider by the relevant due date
- d) commits or suffers the occurrence of an *Act of Insolvency*

8.2 Termination by the Provider

If the Customer:

- a) defaults any obligation under this approval
- b) may terminate this approval by written notice to the Customer.

9 Indemnities and release

9.1 Customer's indemnity

The Customer indemnifies the Service Provider against all loss, damages, cost or expense sustained by the Service Provider with respect to:

- a) death or personal injury
- b) property damage
- c) consequential loss
- d) financial or other loss, damage or liability; arising from the transport, supply and or application by the Customer

9.2 Limitation upon indemnity

The indemnity - the subject of Clause 10.1 - will not apply with respect to injury, damage or loss deliberately or negligently caused by the Service Provider or resulting from an act of negligence, breach of contract or breach of duty on the part of the Service Provider.

9.3 Expiry of indemnity

The indemnity in Clause 10.1 will continue to apply notwithstanding the expiry or termination of this approval.

9.4 Release

The Customer releases the Service Provider from any liability for any costs, loss or damage suffered by the Customer as a consequence of:

- a) the failure or interruption of delivery of potable water

10 Miscellaneous
