Media release

Allconnex advises traffic changes on Ferry Road

Allconnex Water is advising the public that a single lane on Ferry Road north-bound is closed again this morning between 9am to 12pm.

Temporary re-patching work will be undertaken by Allconnex work crews at the intersection of Cotlew Street East and Ferry Road at the request of the Mains Roads Department.

It is understood Main Roads will be on site tonight to do permanent repairs on the affected section of road.

This works follows yesterday's wastewater main failure and completion of repairs overnight.

Allconnex Water regrets any inconvenience caused.
