Media release

Allconnex requests motorists to avoid Racecourse Drive

Allconnex Water is requesting motorists to avoid the Racecourse Drive area at Bundall over the next few days while repairs are undertaken on a wastewater pipeline.

A section of Racecourse Drive between Daimler Drive and Crombie Avenue has been temporarily closed, which will affect traffic flows today and over the weekend. Diversions are in place along Racecourse Drive, although commuters can expect delays.

People planning to attend the Saturday's race meeting at the Gold Coast Turf Club and the Farmers Markets at the turf club on Sunday may wish to plan alternative routes, either along Bundall Road or Benowa Road wherever possible.

Allconnex Water regrets any inconvenience caused.
